PROFESSIONAL SUMMARY

Python Developer with hands-on experience building, operating, and maintaining software systems. Proficient in Python, Kivy, and Flask, with working knowledge of HTML5 and CSS3 for front-end integration. Skilled at diagnosing and resolving software bugs to keep systems running reliably, and experienced in developing custom applications from scratch based on direct user requirements. Brings a UI/UX-informed perspective to development work, resulting in interfaces that are functional, intuitive, and easy to use. Comfortable working independently to deliver complete software solutions on schedule.

PROFESSIONAL EXPERIENCE

Python Developer - Software Operations & Maintenance

2024 – 2025

Royal Makado

Nigeria

- Operate and maintain the organization's software systems, ensuring stable and reliable day-to-day performance.
- Identify, troubleshoot, and debug software issues, minimizing downtime and keeping operations running smoothly.
- Apply Python development skills to fix, adjust, and improve existing functionality as operational needs change.
- Support the wider team by resolving technical issues quickly and maintaining dependable system uptime.

Freelance Software Developer

2018 – 2024

Federal Polytechnic Offa

Offa, Nigeria

- Designed and built custom software applications for fellow students' academic and final-year projects using Python.
- Worked directly with students to gather requirements and translate project briefs into working software.
- Used Kivy to build desktop and mobile app interfaces, and Flask with HTML/CSS for web-based project components.
- Delivered functioning applications to specification and on deadline, gaining hands-on experience across the full development cycle - from requirements gathering through testing and delivery.

EDUCATION

Higher National Diploma (HND), Computer Science

2024

Federal Polytechnic Offa

National Diploma (ND), Computer Science

2021

Federal Polytechnic Offa
